WARNING! Proof/ PDF file/ print is used to assess the overall graphics design, layout, printing, correctness of the text, and is not 100% reflect the final result. There may be deviations due the differences in color printing technology used, the type of substrate and for flexographic printing dot gain.
In digital printing all additional spot colors (e.g. Pantone colors) will be converted to CMYK.
Accepting the customer takes full responsibility for content and color of the signed proof.
